REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: There is insufficient motivation in the prior art rejection of record to combine the prior art references of Kardys and Tipton *et al.*, since the compositions disclosed in each reference are formulated with different functions. Moreover, the prior art lacks guidance that would motivate one of ordinary skill in the art to select ethyl lactate from the Tipton *et al.* reference over the 19 other listed solvents in that disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
